

Achieve Equity Conference

Tuesday 13th December 9.15am (registration and coffee) – 4.00pm
University of Birmingham Teaching and Learning Building

The team that brought you RADY Networks (Raising the Attainment of Disadvantaged Youngsters) and the hugely popular #RadioRADY present the first in-person event since Autumn 2019. This is possible because of the generosity of the School of Education at the University of Birmingham who have provided the venue free of charge.

“**Achieve Equity**” will challenge and inform. It will offer you tried and tested practices for you to implement back in school.

Our opening Keynote Speaker is **Professor Diane Reay**, Professor of Education at Cambridge University and author of “Miseducation – Inequality, education and the working classes”. Diane will give us an insight into the problems of equality and equity in our schools and some international perspectives on solutions.

To close the Achieve Equity Conference we are delighted to welcome **Hywel Roberts** (recently described as ‘..a world leader in enthusiasm’) to present ‘Botheredness: a reverie in making learning matter’. Hywel will offer examples of work from Primary, SEMH and Secondary perspectives.

Of course, there will be ***workshops with examples shared by schools*** of the excellent work going on in the schools across England and Wales that we have the privilege to work alongside. Workshops will be led by Louise, Simon and Trevor from Challenging Education and Special Guest Georgina Burt, Development Manager for Child Poverty Action Group.

These will centre around how schools **achieve equity**

- through high expectations
- through planning at all levels
- through curriculum delivery
- by broadening participation

Each workshop will involve examples from secondary and primary phases as well as the opportunity to network as you work ideas through for your context.

The Challenging Education team have some great news to share about our work going forward. Teaser – you could be the first to hear about project grants available to schools!

We hope you can join us. For the first time, we have had to make a small charge to cover refreshment and other costs but at £75 (plus VAT) I think you will agree this is exceptional value.

Book your place [HERE](#).

The Teaching and Learning Building at the University of Birmingham is easily accessible by frequent trains to the University Station (from Birmingham New Street or the south) and there is pay and display car parking on-site.
