

Test and Trace

**"I WANT MY FIRST
JOB TO MAKE AN
IMPACT IN THE WORLD."**

RECRUITING NOW

LABORATORY SUPPORT TECHNICIAN

**Play your part today and help make a
difference to your community.**

NHS Test and Trace in Royal Leamington Spa have an exciting opportunity for those early in their STEM career who are interested in helping the UK back to a more normal way of life.

With our national NHS Test and Trace programme being key to stopping the spread of the virus, we have a Laboratory Support Technician role which is relevant for those early in their STEM career who are looking to play their part during this unprecedented time.

Joining the NHS Test and Trace team will be a career start unlike any other.

Working at the state-of-the-art Royal Leamington Spa Laboratory.

The Royal Leamington Spa laboratory will cement the UK as a world leader in diagnostics and will form a key part of the UK's national infrastructure to respond to future epidemics.

In the long term it will also add diagnostic capacity for other critical illnesses, including cancer, cardiovascular and metabolic diseases.

Test and Trace

Play your part as our Laboratory Support Technician

We need Laboratory Support Technicians to support the fight against COVID-19.

Being a Laboratory Support Technician means you'll be working in a team to support the **processing of COVID-19 test samples**. You will get to support specifically in the unpacking and preparation of test samples, as well as supporting equipment operators.

This role is ideally suited for **school leavers and college students** over 18 with a keen interest in science. No previous experience is necessary, but a **good level of literacy and numeracy** is needed to be considered for the role.

As part of the application process, we will request that you take a **simple online test** on a computer, laptop or tablet.

What you'll get in return

Laboratory Support Technicians will receive a competitive rate of pay and a 20% uplift will be applied on top for any night shifts that are undertaken. A bonus will also be given upon completion of your contract.

Training will be provided so you can confidently develop relevant laboratory skills for this exciting position.

More importantly, you'll get to work alongside some of the UK's greatest scientific minds and work with state-of-the-art technology, giving you invaluable first-hand experience.

Working safely together

Safety and wellbeing are our top priority. We want to reassure that working at any NHS Test and Trace facility will also mean adhering to strict safety protocols.

All our workspaces and safety measures are designed to ensure maximum care.

Our people also have access to an array of resources to learn more about protecting mental health and supporting others.

Be a part of a UK legacy

The world was caught off guard by COVID-19 and nations are now committed to being prepared next time.

Joining our team will enable you to participate in the global investment to prepare and tackle future disease and virus outbreaks.

Your work will help us ensure the safety of people in the future.
