

## PREVENT UPDATE: NEW TRAINING OPPORTUNITIES

### FACE TO FACE COURSES

A refreshed programme of Prevent training events have been developed for 2019/21, including one brand new face to face course that is available as well as new e-learning products. The main local Face to Face training courses are:-

#### TRAINING FOR DESIGNATED SAFEGUARDING LEADS

There is a dedicated Prevent Training offer delivered by the Education Safeguarding Service together with the Prevent Officer **that should be the first port of call for newly appointed DSL's**. This includes a guide to use of WRAP 3 as a training resource within your school. Designated Safeguarding Leads (DSLs) previously attended a Train the Trainer course delivered by Police Prevent officers in order to deliver the original WRAP programme to school staff. These workshops are now being provided to support Designated Safeguarding Leads to use the new online WRAP 3 programme with groups of staff to ensure staff are appropriately trained and informed about the Prevent agenda. They also include key updates regarding Prevent in Warwickshire. Please find attached the course outline.

### WORKSHOP TO RAISE AWARENESS OF PREVENT (WRAP)

This Home Office approved course provides an introduction to Prevent, discussing the issues of vulnerability to radicalisation, the risks and how to refer concerns and access support. It takes around 1hr 30 minutes and is an ideal introduction for staff new to the Prevent Duty.

### CORPORATE PREVENT UPDATE TRAINING (NEW!!)

The Prevent Duty was established in 2015 and since that time many people have attended the Workshop to Raise Awareness of Prevent. However the changing nature of the threat and risk associated with Violent extremism means that we need to refresh our understanding of how vulnerable individuals can be radicalised and how we can work together to challenge this. A new training course has been prepared for this purpose, and covers:-

- A brief overview of the Prevent Duty
- The current priorities and risks in Warwickshire

- The signs and symbols associated with extremism
- The impact of online grooming
- The support that's available and how to access it

The training takes 1hr 15mins. It is suitable for staff who may have attended WRAP previously and need a refresh as well as those who are new to Prevent."

## **PREVENT ONLINE GROOMING**

Online Grooming Keeping Your Family Safe is targeted at Parents and front line workers to support everyone to keep children safe online. The first half of the session discusses how young people are targeted by online by groomers and befriended, be that for the purpose of radicalisation or other possible harmful outcomes. The second part is delivered by the Community Safety team's Cyber Crime Advisors, who make parents and staff aware of some of the websites young people may be accessing, the dangers around these and how to add security settings to technology in the home, to keep children safe.

Sessions are open for groups of parents to book directly or for schools and community groups to arrange a group session with parents at a date and time that is suitable. To discuss arranging this for your school please contact Geoff.

## SCHOOL PREVENT RESOURCES

There are a range of leaflets and posters regarding Prevent you may wish to use. An example of these is featured below. If you would like to discuss these further please contact Geoff on the contact number above.

With regard to Prevent E-Learning courses there two new Prevent e-learning products now available: a dedicated referral awareness eLearning package, and a package that explains in depth the Channel process to support the online awareness tool.

### Prevent Referrals (New!!)

The training is for anyone who has been through the Prevent awareness eLearning or a Workshop to Raise Awareness of Prevent (WRAP), and so already has an understanding of Prevent and of their role in safeguarding vulnerable people. It is aimed at anyone who may be in a position to notice signs of vulnerability to radicalisation and aims to give them confidence in referring on for help if appropriate. It is also designed for those (for example line managers) who may receive these referrals and have to consider how to respond, whether that be establishing more context, or reaching out to partner agencies for support. A link to the training is below.

### Channel Awareness (New!!)

This training package is for anyone who may be asked to contribute to, sit on, or even run a Channel Panel. It is aimed at all levels, from a professional asked to input and attend for the first time, to a member of staff new to their role and organising a panel meeting. It covers both an introduction to what Channel is, how it operates in the user's region, and how to organise a Channel Panel for the first time. In response to feedback, it also covers information sharing, including how, when and with whom to share information of a Channel case. A link to the Channel Panel training is below.

### Prevent awareness eLearning

The Prevent awareness eLearning has also been recently been refreshed. This includes updates to reflect the recommendations from the Parsons Green review, updated information following the change in threat and attacks of 2017, and new case studies. A link to the training is below.
