

Primary STEM Conference

Summary

Our primary conferences always provide outstanding learning opportunities linked to topical developments in primary science teaching along side time to talk and share ideas with other primary practitioners. Please see each entry for more detail of the focus in your locality.

- Discuss current good practice in primary science
- Recognise your own good practice, and identify areas for development
- Reflect on ways to translate ideas to your school context, and plan for action

Timing:

1 Day

Course Leader:

Chris Catto

13 Jul 23

Keynote - "Being Focused"

With Amanda Poole

Amanda's keynote will be on her research with the University of Manchester on the recently published "Being Focussed" report. This report follows on from the previous research she was involved with called "Ten key issues with primary science" and is all about effective monitoring of primary science to improve children's learning.

Do not miss the best primary STEM conference in Birmingham. Fantastic keynote based on research, workshops with practical ideas that can be included in lessons immediately, great networking opportunities and marketstalls offering freebies – this is an unmissable event!

Workshops -

- Explorify
- Purposeful Practicals
- Turtlestitch
- Introducing the Micro: Bit
- What have a bus seat, ice cream, teabags and sheep got in common?
- Tech She Can
- STEM Ambassador Hub
- STEM Enrichment Hub

Cost £100 – but if you add the discount code TRP2223 when booking you will receive £70 back to your school via BACS payment making the net cost just £30 – unbeatable value!
