These whole day courses focus on the areas of problem solving, reasoning and provide strategies and resources to use in the classroom with secondary students. To make the most of these courses it is recommended that schools attend all three, though it doesn't have to be the same teacher that attends.

The courses are funded by the DfE and are offered free of charge to teachers working in state funded schools, colleges and academies. In addition, schools will be eligible to claim £100 per teacher for each day or £150 per day for schools in Category 5 and 6 areas.

Venue: The Polesworth School, Dordon Road, Tamworth B78 1QT

Dates: Wednesday 7 November 2018

Wednesday 12 December 2018

Wednesday 23 January 2019

How to Apply:

Further details on these courses and how to apply can be found here:

www.amspace.org.uk/events/teachers

Applications for these courses are now open and early booking is advised.
