

BUILDING TRUST IN YOUR SCHOOL OR MAT

In 2021 support for teachers has become a matter of national recovery (Education Support, 2021) .

As leaders, you have multiple demands on your time and skills.
Few schools have a specialist on hand to help them build the social capital in their staff body so that all can truly flourish.

In your school you may have someone with the latent skills and disposition to become a school Genie - someone who can be trained in the art of seeing and being, catalysing trust and coaching so that your staff can thrive.

The Schoolgenie Programme provides 7 days of training throughout the year - a combination of weekdays and weekends - and is an empowering and transformational journey for your Genie or Genies.

**Find out more at a bespoke webinar on
24th March at 5pm or 25th March at 8pm.
Just email info@schoolgenie.co.uk to sign up for either event.**

Highly skilled, trusted, autonomous teachers are a fundamental building block to national success (Cordingley & Crisp, 2020).

In addition to access to the expert training, resources and support from Schoolgenie, Warwickshire participant schools in 2021/22 will benefit from being part of a small cohort, with responsive facilitation, enabling the programme to further develop before national roll-out. This is a unique opportunity to be amongst the first to benefit from this truly innovative project.

Schoolgenie is a not-for profit Community Interest Company, founded in 2020 by Jeanie Davies, author of *The Trust Revolution in Schools* and Georgina Newton, Associate Professor at Warwick University. Together they have over 40 years of teaching experience. They can't wait to work with you to transform your school with trust.
