

In February 2017 the UK Government and National Crime Agency classified Child Exploitation as a National Threat in the UK.

Warwickshire's Multi-Agency Child Exploitation, Missing & Trafficking Team is offering FREE and essential Child Sexual Exploitation Awareness training for all Warwickshire education providers.

The training is delivered by our Barnardo's Advanced CSE Practitioners directly at your school or premises and we offer a number of sessions to suit your needs. We want to support education providers to have the knowledge and confidence to identify the signs of child sexual exploitation and respond appropriately if they have concerns about a child or situation.

For more information about training or to book a session please email us:
