

In February 2017 the UK Government and National Crime Agency upgraded Child Sexual Exploitation to National Threat level.

Warwickshire **Child Sexual Exploitation Team** wants to support all education providers to have the knowledge and confidence to identify the signs of CSE and respond appropriately if they have concerns about a child or situation.

We deliver FREE half & full day multi-agency training with the Warwickshire Safeguarding Children Board for all professionals in Warwickshire and you can access the training via the WILMa website: www.warwickshire.gov.uk/wilma

We understand that it can be problematic for schools to release staff for multi-agency training and are therefore also offering FREE CSE Awareness Sessions for all Warwickshire education providers. We can deliver directly at your school or premises and offer a number of options to suit your needs.

For more information or to book a session please contact: [Katy Shipley](#)
