# TEENTECH ™

in the West Midlands and Warwickshire!

Schools and business can get involved with our programmes in and around the area.

We provide students the opportunity to experience contemporary industry through demonstrations and challenges alongside networking and mentoring with industry experts at our events.

We encourage young people to explore the careers of the future and make the most of local industry and talent who are invited to host stands at our TeenTech Festivals, host Innovation Days at their workplaces and offer mentor support at our TeenTech Awards and TeenTech City of Tomorrow events.

Contact us to find out more about how students can get involved.

TEENTECH ™

Inspiring tomorrow's innovators

TeenTech provides an environment where young people, educators and employers work together to create unique learning experiences with lasting impact.

After a TeenTech event

81%

students said they were interested in a career in STEM

"Over three years of engagement with TeenTech the number of girls choosing Physics has increased from 43 to 87.5%.
Headteacher

"We did not realise the full power of engineering and technology before participating in TeenTech.
Student

"TeenTech has given us an incredible platform to help the next generation of designers, engineers and project managers.
